

GA2\_US1: As a user I want to be able to register as a teacher and advertise private lessons to be able to help students better understand the course.

GA2\_US3 : As a user, I want to post various study problems, so that other users can help me solve them.

GA2\_US4: As a user, I want to have the option of answering a list of questions, so that me and my study buddy can get to know each other before studying together.
